Omschrijving

The Frauscher 686 Lido is another milestone for the Austrian flagship shipyard and is perhaps Frauscher's most extraordinary ship. Beautiful design, clean lines, lots of space and unprecedented performance. Perhaps this combination is the reason why the Lido is often used as a tender on super yachts. The sailing characteristics are impressive. Fast, agile and above all very comfortable. Sails predictably and dry, even on the open sea. There is no ship so beautiful and versatile in this length. As icing on the cake, this Lido 686 underwent a refit in 2016 in which the ship was provided with a beautiful new layer of paint, new upholstery and custom made switchable exhaust system for the

musical support.
