Omschrijving

The Parker 680 Jet was specially designed for Parker Ribs by world renowned UK naval architect Adam Younger. Adam's brief was the length of the craft, propulsion package and that water jet only was required. The performance after the initial trials surprised us all. A speed of 40knots was achieved with superb sea keeping qualities. This model is ideal for coastal shallow water operations, lakes and rivers. It is the perfect boat for search & rescue applications, Harbour Patrol, Police, Maritime Security, Military and Navy. AlgemeenRoer:
