Omschrijving

The most affordable way to fly your own jetpack! The most affordable way to fly your own jetpack! This add on kit allows you to use your jetski / PWC as power unit. It is compatible to Sea-Doo, Yamaha and Kawasaki models.

Say hello to our breathtaking Jetpack Add-On Kit, our latest breakthrough in the watercraft sector. Your family's dream of great days on the water is possible right now. The Jetpack Add-On Kit is playful and very easy to fly. Mounting our kit to your existing jetski is also extremely simple. Our Jetpack Add-On Kit is meticulously designed and built in

Germany to offer every type of pilot a great experience on the water.

Instead of mounting the water supply tube under the bottom of the PWC / jetski we use the way above which allows the boat unit to get easy on plane.

The Jetpack Add-On Kit is equipped with more features than you would expect from its attractive pricing.
